Katelyn Shatz, Pharm.D., MBA  
*Director of Professional Development*

Brandon T. Jennings, Pharm.D., BCACP  
*Treasurer*

Anthony DeClue, Pharm.D.  
*Parliamentarian*

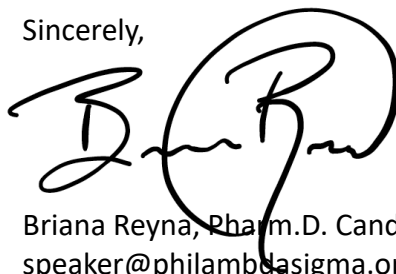

Dear Chapter Presidents and Advisors:

We realize that the Coronavirus (COVID-19) has severely disrupted all of our daily lives with most Colleges and Universities moving classes to an online format or closing altogether. Many chapters have contacted the National Executive Committee (NEC) indicating that local rules will prevent a gathering size that is necessary to conduct an induction ceremony for their new Phi Lambda Sigma members.

In response to this concern, the NEC met on Monday, March 16, 2020 for our regularly scheduled monthly call and discussed this issue. We are very supportive of chapters taking creative measures in order to still induct new members this year. This may include utilizing a virtual platform (e.g., Zoom). We realize that this may require a slight modification to the induction ceremony script, but we are supportive of this measure and want to empower the chapter leadership to implement this one time script change if necessary.

Please do not hesitate to reach out at any time if you have any questions about the ceremony and utilizing a different platform in order to conduct it. Thank you for all you do to help our chapters be successful!

Sincerely,

Briana Reyna, Pharm.D. Candidate 2020
